# WHO WE ARE

## Over 20 years of experience in Africa

PETRODIVE is an Independent diving company providing the Maritime and the International Oil and Gas Industry with a complete underwater contracting service. Our Head office is based in Dubai but we operate mostly in West Africa and in Caribbean.

All offshore diving services comply with the guidelines set by Oil & Gas Producers (IOGP) and the International Marine Contractors Association (IMCA).

Petrodive is a Contractor (Co) member of the IMCA, participating in the work of the Diving Division in the Europe and Africa section.

With more than 20 years relevant experience of subsea management, the company's mission is to offer qualitative services with strong emphasis on safety and operational efficiency.

## PETRODIVE IN NUMBERS

### More than 150 divers in rotation

Our mission is to offer a high quality, cost-effective service with strong emphasis on operational efficiency and safety

### Our Staff

88% of our staff are recruited locally  
Increasing our local content is a key component of our recruitment policy

### In 2020, 100,000 dives in 10 years

We have invested in custom-built, up-to-date equipment to comply with IMCA guidelines and to provide our clients the best efficient services

# OUR HISTORY

## The passion of diving

The CEO and owner of PETRODIVE Stéphane Troté is former diver since the age of 10. His father, diver in the French Navy had transmitted his passion to Stéphane since he was young.

After remaining in Congo for 10 years and having trained the first Congolese divers IMCA, Stéphane Troté becomes a Congolese citizen on January 6, 2015.

## From Africa to South America

In 2009, the former owner of TPSMI offers Stéphane to take over his business before his retirement.

In addition to maintaining our original offices in Gabon and Congo, we open our Head office in Dubai in 2013.

In 2018, PETRODIVE began operations in Trinidad and Tobago to meet the urgent needs for specialized Oil & Gas Contractors in Trinidad throughout Southern America.

In 2019, TPSMI Group becomes PETRODIVE.

## HISTORY

- 1989:** Stéphane started as Diver (French Navy)
- 1991:** Diver Class 2 A
- 1993:** Diver Class 3 A
- 1998:** First offshore mission with TPSMI Gabon
- 2000-2009:** Diver Supervisor and Country Manager TPSMI Congo
- 2009:** Acquisition of TPSMI by Stéphane Troté
- 2010:** Opening of TPSMI CONGO and Gabon
- 2013:** Opening of our head office in Dubai
- 2015:** Opening of TPSMI Cameroon
- 2016:** Opening of TPSMI Ivory Coast
- 2018-2019:** Opening of PETRODIVE Senegal and Trinidad and Tobago
- 2019:** TPSMI becomes PETRODIVE

# QHSE OBJECTIVES

Three priorities sum up the spirit in which Petrodive carries out its work:

Safety

Quality of service

Workforce motivation

They are brought together in our Premius Spirit programme of excellence. Since 2009 Petrodive has invested in custom-built, up-to-date equipment in compliance with the guidelines set by IMCA, which certified our company in April 2010. That marked the start of our Premium Spirit programme, which has been regularly updated ever since responding to the input from a steering committee, whose prime concern is health and safety.

## CERTIFICATIONS

**WE ARE CERTIFIED ISO:9001; 14001 AND 45001**

IMCA approved and ISO certified Petrodive is recognized and approved by the majority of the IACS member certification bodies like Bureau Veritas, Lloyd's Register, ABS, MASE, RINA, INSB..

# OUR DIVING ENVIRONMENTS

PETRODIVE provides high quality and tailor-made subsea services in 4 different environments.

**ONSHORE**

**RENEWABLE ENERGIES**

**OFFSHORE**

**HOSTILE, POLLUTED AND  
CONFINED ENVIRONMENTS**

## RENEWABLE ENERGIES PROJECTS

In an environment increasingly reliant on renewables energies, PETRODIVE adjusts itself to cater the needs of the renewable energy industry. PETRODIVE can assist Renewable Energy Projects anywhere in the world.

PETRODIVE can provide you with the following commercial diving services for renewable projects:

- Subsea cable installation and repair
- J Tube installation and modification
- Installation of mattresses and scour protection systems
- Cathodic protection installation and anode replacement
- Seabed clearance and levelling
- Ultra-thermic cutting and underwater welding
- Underwater refurbishment and maintenance
- Concrete breakout and replacement

# OUR DIVING EQUIPMENTS

Petrodive operates at depths down to 200 metres to inspect and maintain your offshore facilities in complete safety. We have adopted three types of diving spread depending on the depth at which we are working.

## Air system down to 50 meters

- Dive Control Container
- Client Area Container
- Deck Decompression Chamber Container (DDC)
- Machinery & Store Container
- Launch & Recovery System (LARS)
- Personal Diving Gear

## Mixed Gas system down to 75 meters

- Dive Control Container
- Wet Bell
- Deck Decompression Chamber Container
- Machinery & Store Container
- Launch & Recovery System (LARS)
- Personal Diving Gear

## Compact Spread

Developed under IMCA requirements, optimizes the working space. Easy to carry out for short missions.

- Dive Control Container
- Deck Decompression Chamber Container (DDC)
- Gas, Machinery & Store Container

## Saturation System down to 200 meters

- Dive control container
- Deck Decompression Chamber Container
- Machinery & Store Container
- Personal Diving Gear

# PETRODIVE SERVICES

## OFFSHORE

- Underwater Inspection (UWILD)
- Construction, Repair and Maintenance
- ROV services
- Hoses services
- SPM/ Calm Buoy Mooring
- Decommissioning

## ONSHORE

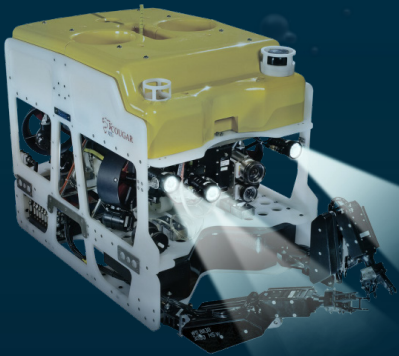

- Civil works
- Shipping
- UWILD
- Inspection
- Maintenance and Repair

## SUBSEA OPERATIONS SUPPORTS

PETRODIVE offers Subsea Operation Supports providing a wide range of modular support services to assist you with your subsea missions.

Our team of divers and specialist technicians can assist you with all your projects, such as building or renovating wharves, fitting or lifting measurement instruments (current meters, buoys, moorings, taking samples, core drilling, etc.).

Our diving platforms are available for any length of time, both for spot missions and as part of framework contracts.

## PETROROV

PETRODIVE launched its ROV Division in January 2021 with initial focus on providing experienced personnel at all level for observation and work class vehicles, operating both in the Africa and Internationally.

PETRODIVE proposes High-Standardised and cost effective ROV solutions. With SAAB SEAEYES, we can carry out both preventive and curative work. Our various ROVs enable us to operate at depths of up to 1,000 metres. We only use vehicles made by SAAB SEAEYES.

## NOTILO PLUS

PETRODIVE has just acquired a Notilo plus drone.

Seasam Autonomous Drone is a compact and versatile solution, perfectly suited to underwater tasks performed on offshore structures.

### Our drone is able to perform:

- Routine underwater inspections
- Inspection in remote or confined spaces
- Structural inspections
- Monitoring of conditions

# PARTNERSHIPS

PETRODIVE has signed exclusive agreements with different companies specialized in the maritime and the subsea sector.

## RALF TECH WATCHES

PETRODIVE launches with RALF TECH the WRX "offshore" a limited edition of 100 pieces after two years of development and experimentation in deep water with the help of the French Navy.

## DUNLOP OIL & MARINE

Dunlop Oil & Marine for Gabon, Congo, Cameroon and the Democratic Republic of Congo. This partnership covers the sale and fitting of hoses and marine breakaway couplings, whose quality and reliability are well established.

## NAMAKA SUBSEA TT

Namaka TT provides Subsea Operations Support for PETRODIVE in South American region.

## SAAB SEAEYES

PETRODIVE uses only vehicles made by Saab Seaeyes.

## MELUN HYDRAULIQUE

PETRODIVE collaborated with MELUN HYDRAULIQUE for tools.

## AQUALUNG

PETRODIVE uses diving equipment by AQUA LUNG.

## GREEN WALL PVC

PETRODIVE is an exclusive distributor of Green Wall Vinyl Sheet Piles GW 620 in 27 countries : UAE, Algeria, Morocco, Mauritania, Senegal, Ivory Coast, Congo, Cameroon, Ghana, Guinea Conakry, Sierra Leone, Togo, Benin...

## L&W COMPRESSORS

PETRODIVE Group provides with German based L&W Compressors distribution, sales, service, training and support for the complete L&W line of compressors and related equipment throughout Senegal, Ivory Coast, Cameroon, Gabon & Congo.

# BUSINESS

## BUSINESS UNITS

SENEGAL, IVORY COAST, CAMEROON, CONGO, GABON,  
MOZAMBIQUE, TRINIDAD AND TOBAGO
